

Hi, I'm Allen White

and I live in Hopedale IL. A few weeks after my 21st birthday (1992) I was in a serious car accident and was paralyzed from the chest down. I have retained only limited use of my arms and hands. After two years of therapy I was able to *adapt a van to my limitations and have been driving ever* since. Being able to drive and give rides has helped me in many ways. It gives me freedom, makes me feel human again, and gives me a purpose in life. I give rides to needy people in the neighborhood on a daily basis. Everything from a ride to the store, to doctors appointments, to work, etc. It helps them almost as much as it helps me.

****Have you seen this van?****

My current van is falling apart - literally - and has 325,000 miles on it. As you can see the doors have rusted and fallen off and it runs only when it wants to. With winter coming and no other options my friends and family suggested I start a go fund me account to see if I could get some financial assistance with the purchase of a newer vehicle. [To see a short video of my story please visit my GOFUNDME page - wheels4allen.](#)

PLEASE SHARE THIS ON YOUR FACEBOOK and other social media for me.

Any help would be greatly appreciated! Thank you and God Bless.

Donations are currently being accepted at all Morton Community Bank locations.

Please make donations payable to Allen White with wheels4allen on the memo line.
